

Real time examples for all data types and methods

Numeric:

Int:

Real time eg : eppo nee oru kadi laa values entry aa check pandora haa ahda nee total pakalam and pudhu value potu arithmetic operators aa potu add or sub or mul or div pannalam values.and store or save and kadaisila ha account ku tally avum.

Float :

Same scenario as like integers but with decimal numbers.

Complex:

Edhuu electricity and quadratic eqn la use avum like impedance and ac signal or circuit.

Variables:

Range func:

Edhu la eppo s.roshan nu full name irukku adhula haa company kekuranga haa annaku evooda ha surname or initial dhan venum so ne endha function aa edhuku use pannalam.
Eg : `print(name[any index value u want but crt index must be their to find the surname])`

Len func:

Edhuu charc or one word aa count pannum char count pannanum naa adhu modhama haa oru str kula ha irukanum.and if u want to count the words in the list naa nee oru oru words kum str use pannanum so u can count the no of words in the list.

Edhu adhuku use avum naa eppo oru textile shop laa oru list la set of stack names irukuu adha avloo stacks modhama ha iruku nu numbers la venum na len function aa use pannalam.

Count func:

Eg: ccle model or voter list edhu rendulaium in cycle modal oru particular model name aa potu edha func ha mention panni use panna ha data laa endha model ethana ha iruku nu slulum and also in voter list it check the name what u have specified and i will give enthana

ha peru irukanga ha nuu suppose rendu peru a irundhanga ha aadha check panitu delete pannalam.

Sort func:

Eg : oru supermarket la stack or item list aa aa first ellathayum entry pannitu apron adha alpha order irukum so adhuku sort method use pannuvanga.

Pop func:

Eg : mobile store laa oru list of phone model iruku adhu la last model enum sale aval ha and remaining sale aiduruchu and last model aa adukanum so endha func aa use panni adudhu aprom this model is for sale now also and put some offer.

Reverse func :

Eg : eppo oru police training iruku nu vachikalamm adhu la players lam descending height order la irukanga ha vangaha la ascending height order la vaikanum adhan ne simple ha reverse func use pannlamm.

Append func :

Oru hotel laa neenga sapudringa haa saputa dhukulamm bill poduranga haa kadaichila ha water bottle vangurainga haa appo avan last la dhan add pannuvan bill laaa.

Extend func :

Same eg like append .but edhula haa last la juice um water bottle um vangurang aha so rendum aa last la dhan add avum.

Clear:

Eppo any model of any type gadgets or anything oru kurupita alavuku dhan adhu happening la irukum aprom trend pochuna ha andha data clear pananum naa endha function aa use pannalam.

Find func:

Eg : provision shop laa endha func aa use panni adha stack aa kurupitu adudhu details pakalammm avaloo stack iruku enum appadi like that.

Strip func:

Eg : eppo certificate avguradhuku pogum oodhu nxt person ungaluku dhan kudukuranga ha doo apo neenga ha stage ku romba ha thoram ha irukuringa ha soo appo endha function aa use panni thoradhula ha iruhu kita ha vandhuruvinga haa and also i think so it is crt but lemme try this eppo certificate create pannuringa ha na first texting is important soo adhul aha strutting and ending la mistake ha space edha vadhu kvbituruthinga ha naa adha strip function aa use panni certificate print avum bodhu mistakes spaces illa ha ma varum only in front and last .

Join func:

Eg: endha func adhuku use pannuvom naa oru list laa una pathi str la iruku so adha ne oru line or multiple line la venum without separation so endh afunc aa use panni andha detail aa with punctuation print avumm..

Islower func :

Eg : any large data (nerai haa typed ha iruku details or data) type panna ha apram
Adhu full ha lower la iruka ha nu check pandradhu endha func use pannalamm ne vandhu
andha data aa full ha pakuradha dhu vida ha endha func use pannalamm .

Like ne vandhu string word auto crt avalam soo ru vati full ha data um check pandradhuku.

Isupper :

Eg : same eg like islower

Replace func :

Eg : oru football team la oru forwarder player retire avurann so apron oru forwarder varann
aandha player aa data list la relace func use panni data list aa change pannalamm.

Split func :

Eg : 00112,chennai,tn

Edhu anga use pannalam naa eppo oru zip code for our city and andha city andha state la
iruku nu endha moonudhaium split panni oraa line la varanum naa u can use this function.

In func :

Eg : edhula haa epo oru mobile model varudhuu adha vangalam ha venam ha nu irukumm
so neenga ha yella ha model vanguradha nabagam vachiruka ha mudiyadhu soo adha la
data ha va store pannirupom so adhula ha in nu function use panni andha model iruku hanu
pakalam..

Capitalize func:

Eg : same eg like islower but if u have typed the para ha in all words in lower also the string
words in the para so u can use the func to change the letters of all words in para ha into
caps in author book

Upper func:

Eg : data aa suppose alpha irundhuchu naa full haa if u want or u are commanded to store
the values or data in upper means u can use this func .

Lower func:

Eg : same eg like upper func

Max func :

Eg : endha func real time la eppo schl or clg laa marks la yaru max ha score pannirukanga
ha nu parkalamm

Min func :

Eg : same like max func but least mark check pandradhuku
