```python
para = """
            Education is a process of learning through which we acquire
knowledge.
It enlightens, empowers, and creates a positive development.
Education gives an individual the knowledge and skills to work with virtue.
It aids the all-round mental, physical, and intellectual growth and
development of an individual
                            """
